WATER WORKS BONDS SNAPPED UP.

They Go To William R. Compton Company, St. Louis, Mo., At 101 1-2, Highest Bid.

THERE WERE SIX BIDS IN ALL.

When the day and hour came 'round for the sale of the water works bonds the bond trustees were gratified to find quite a number of big financiers ready and anxious to float the bonds and at satisfactory figures. If anybody had any misgivings as to the credit of Daytona, her ability to meet any future obligation she may assume, let him now and forever disabuse his mind of such erroneous notion. Daytona's credit is A1; the waterworks will be pushed through to completion as speedily as is consistent with thoroughness of construction; the bonds will be taken up one by one on schedule time; the High School bonds will likewise be quickly mopped up and as surely paid off and Uncle Sam as the dates of their maturity roll 'round.

Practically everybody has an abiding faith in the onward march of Daytona to greater wealth, greater beauty, greater popularity and greater power. Nothing perhaps in the history of the city has emphasized the confidence, not only of the citizens but the confidence of the business world, in her sure footing and triumphant march to greater prosperity than has the sale of the water works bonds.

The avidity with which they were snapped up at a good premium guarantees a similar scramble for the school bonds which will soon come upon the market, and it will not surprise the Daily News to see the school bonds bring a handsome premium. It's a good, safe proposition, and as there are soon a

FORAKER POKES PRESIDENT.

"Iniquitous And Unholy" Were The Efforts of Secret Service Men.

SO SAYS THE OHIO SENATOR.

[By United Press.]

WASHINGTON, Jan. 12.—"Iniquitous and unholy work," is the way Senator Foraker characterizes the efforts of Herbert G. Browne and Wm. G. Bald win, special detectives employed by the President to fasten the guilt of shooting up Brownville upon the colored soldiers of the Twenty-fifth Infantry.

In a strong speech this afternoon Senator Foraker denounced the reports that soldiers had confessed to the sleuths as "atrocious lies." He contended that the employment of detectives was in violation of law, and that all payments made to them were invalid.

In discussing the employment of detectives Senator Foraker said, "They cannot be characterized without the use of language disrespectful to the chief executive." Foraker produced letters from discharged soldiers saying the men had been approached by detectives and told to "tell the true story of the affair."

THE POLITICAL POT BEGINNING TO BOIL.

Justice Titus Is Out In A Card Announcing Himself For City Collector.

The political horizon shows up a little interesting on our edge and as the days lengthen the interest will grow. Judge H. T. Titus is out in a card announcing himself for city collector.

It is understood that W. G. Hobbs wishes to succeed himself and he will likely follow suit with a similar card. There may be others willing to serve the city in the same capacity.

There is an undercurrent of talk but so far no formal announcement for other offices, but it is thought it will not be long till the field will be full of aspirants for political preferment. The more the merrier, just so the best man for the place is selected. Let that be the chief aim.

HAT GATES, NOT WHEAT, AS REPORTS HAD IT.

A Hat Manufacturer Sojourning On The Beach, Is Mistaken For Great Grain Plunger.

It was a case of mistaken identity, as "The Right Church but the Wrong Pew," when the rumor floated around Daytona, Seabreeze and Daytona Beach, and possibly Midway, that the famous John W. Gates, of Wall street and now circus fame, was at the Clarendon for the winter.

A number of people were worked into fever heat just thinking that the future of what speculator was here, but instead of being John W. Gates the personage in question turned out to be John B., not Rockefeller, but Gates, John B. Gates, who is almost as famous in his line as John W.

John B. Gates is from Chicago, but he controls only about twenty hat stores, he being the manufacturer of the Gates hat, becoming almost famous as the Stetson brand that made Dr. Lund known beyond the county limits.

Mr. Gates is here to rest and enjoy himself, and this he will no doubt do in the balmy Florida atmosphere. No one could enjoy himself simply being taken for John W. Gates, who was mentioned in the Daily News only a week ago.

John W. is going to dabble in an extensively new venture next summer. He has dropped $3,000,000 in the circus business, having bought the Ringling Royal circus from the Bostock Animal Show and bought the Miller Brothers 101 Ranch, Wild West Show. He will combine these three and look the circus trust, controlled by the Ringling Brothers and which is about as formidable as an earthquake.

CONFLAGRATION IN THE NEGRO SUBURB.

Marshal John Myers Was Injured By An Electric Light Wire.

PROPERTY LOSS ABOUT $7,000.

Fire at an early hour this morning destroyed five buildings in Midway, one of the colored settlements of Daytona, entailing a property loss of approximately $7,000. The buildings destroyed were Williams' Hall, the lower floor of which was occupied by Adams' drug store, Odum's meat market and Stripling's barber shop, a dwelling in the rear of the hall, the building adjoining on the east owned by J. A. Jackson, as well as a dwelling and meat market owned by the same person were destroyed by the conflagration. Next to this was a dwelling owned by J. A. Clements, which was burned. Another house owned by Mr. Clements was torn down to stop the sweep of the fire.

The origin of the fire is unknown. It was discovered in the upper story of Williams' Hall, and as an entertainment had been held there the evening previous it is presumed that the fire was started by a cigar stump.

In removing an electric light sign Marshal John Myers received a shock which dislocated one of his shoulders and burned his neck. Mr. Myers says Manager Gunn, of the electric light plant, told him the current had been turned off, which he thinks must have been a mistake. Mr. Gunn, says, however, that there is no question about the matter as the current had certainly been turned off and it was only the strong induction current which affected Marshal Myers.

The burned buildings stood in a thickly populated section of Midway, and the prevention of the spread of the fire is largely due to the efforts of Justice Henry T. Titus, who took control of the situation, and whose efforts are highly appreciated by the colored residents.

NEW DEPOT TO BE DEMANDED.

Council Sanctioned Heymann's Move Looking Toward Construction of New Depot.

MANY MATTERS TOUCHED UPON.

The city council was in protracted session last night and the transaction of some business and the indulgence of considerable of talk characterized the session.

A number of bills were presented and ordered paid. The bill of Hough & Bond for $703.75 was referred back to Hough & Bond for revision.

Alderman Clark called special attention to the unsanitary condition of Mrs. Beckmo's Midway school premises. Council authorized opening of ditch and the laying of sewer drain pipe as a precautionary measure.

Alderman Smith announced, in answer to query, that next year's budget would be ready for presentation at the next meeting of the council.

Ex-mayor Greene addressed the council, making some statements of interest as to the newly purchased water works site.

Al ben an Heymann filed a paper praying the mayor to memorialize the council to file with the Railroad Commission a demand for an adequate depot for Daytona. The alderman pointed out the limitations and defects of the present depot, its limited capacity, its failure to provide the patrons with good water, sanitary closets, heat, etc. He pointed out that Plant City, Quincy, Madison, etc., had taken similar action, which resulted in the building of adequate depots.

The collector was instructed to collect license from all who were doing business here prior to October 3rd, 1908.

On motion of Alderman Schmidt, a committee was appointed to confer with the Halifax Rifles, soliciting them to organize a temporary fire company.

On motion of Alderman Mills the newly organized Daytona Band received official recognition and approval.

The Board of Public Works instructed the council to prepare for interest on public bonds for 1909 and include same in next budget.

The invitation to the council of Mrs. Annie O. Somma to attend the lecture of Mrs. Caroline Bartlett Crane at the Tymoy was accepted.

An ordinance requiring the closing of barber shops on Sunday was unfavorably reported.

Thomas Ogawa, the South Ridge and Japanese, addressed the council requesting that he is not getting a square deal in Japtle, etc. A committee was appointed to look into the matter.

MAYOR HAS SAID SO AND IT MUST BE.

Posts Notices Calling Attention To Ordinance and Demands Its Enforcement.

Who flung dem peanut hulls from de balcony down on Miranda Jackson's parlor hat? Who threw that stove pipe in the alley? Who dropped that bottle on the pavement? Who dumped that rubbish in the drain? That is what Marshal John Myers wants to know, and his hawk eye will be apt to discover the culprit.

There is no general a violation of this ordinance for somebody not to get "pinched," and when you do, don't blame the Daily News for not warning you. It has inveighed against littering up the pavements, streets and the package time and time again.

The litter habit seems to be growing, and Mayor Seaman is determined to stamp it out, and he is right; everybody will back him up—except the fellow who is caught in the act and has to pay up.

Miss Caroline Bartlett Crane, of Kalamazoo, Mich., the noted Civic Improvement worker, who is here to assist the Civic Department of the Palmetto Club in its campaign for a better and more beautiful Daytona, will pose her first address before the Palmetto Club on the afternoon of Jan. 14th, at 2:30 p. m., at the Club House, on Orange avenue. PIANO ON EXHIBITION IN THE M. B. AULTMAN STORE.

The High School Further Ahead Than Ever—One New Entry —Rifles Strong.

The latest count in the Bush & Safford piano contest shows the Daytona High school to be further ahead of the nearest competitor than ever, although the vote cast for the Halifax Rifles was a large one. Some one will surely fall down before long, and then interesting developments may be expected. In Daytona there was really nothing very startling. The standing did not change, but one new candidate entered the field. The new runner is the Daytona Institute, it being nominated with nearly a thousand votes.

Outside of Daytona the race is more interesting. Wilmant opera house took a rest, but is still in the lead, although the Seabreeze High School made a neat gain. The Kingston school had a large vote, and Miss Alice Daugherty passed Miss Edith Curtis, having an unusually large vote for an individual.

One of the pianos, a handsome B. S. Howard instrument, is on exhibition in the M. B. Aultman clothing store, on South Beach street, where you are invited to go at any time and see it, and try it if you wish. The other piano will be put in some prominent Beach street store in a few days.

Seabreeze News

SEABREEZE, Jan. 12.—H. W. Sawyer of Boston, is a prominent arrival at The Princess Issena. He is addicted to piscatorial sport, and hopes to enjoy more than the usual fisherman's luck while here.

Dr. Henry C. Cook, of Minneapolis, Minn., was visiting his parents, Mr. and Mrs. W. W. L. Cook, at the Princess Issena, several days last week, and left to join his wife for a short vacation in Virginia. Although a young man Dr. Cook has more than established himself in his profession, being widely known in his section of country.

Misses Violet Middleton, Anna Mary Wilson and Pearl Wilson united themselves with the First Baptist church at Daytona Sunday morning, being received into the church by Rev. A. L. Abercrombie, pastor in charge.

A. W. Middleton and Lewis Johnson returned Sunday from a week's stay at St. Augustine, having made the trip in Mr. Johnson's boat. Harry Middleton went with them and intended to stay on the promise of getting shady work.

The many friends of Mrs. Britton will regret to learn that she was taken quite ill enroute to Greensboro, N. C., and stopped off at Columbia for medical attention. However, she is now in Greensboro with relatives, and the doctor in charge reports her condition as very much improved.

S. E. Gilmore made the auto trip to DeLand today with the following party: Mrs. Elma O. Stevens, Seabreeze; T. F. Williams and Mrs. Perry Hartley and daughter, Maids, Daytona.

Mr. and Mrs. O. F. Ruth, registering from Los Angeles, Cal., have arrived in the burg and are pleasantly located for 10 days next in rooms at the Atlantean Fleetwood avenue. Mr. and Mrs. Ruth, in an interview with a Daily News reporter, stated that they went to California for health, which had the desired effect so far as Mr. Ruth was concerned, but after seven years, Mrs. Ruth's health still continuing bad, she was advised by her doctor lately a change, and they are here to try out whatever healing balm may be found in this Gilead. Comparing the east to living here and in California they thought, so far as they had investigated, it averaged about the same.

Origin of "Rooter."

Slow, referring to the "hoodlum" which the citizens of London were wont to make in the streets on "the vigiles of football days and on the same festivall days in the evenings after the entire solliar army took to throwing wood or lahour towards them" and which were an occasion of feasting and merriment, says that "these were called hooters as well of good as ille amongst neighbours, that, being before at contrarietie, were there by the labours of others, reconciled, and made of bitter enemies, loving friends, as also for the vertue that a great fire hath to purge the infection of the ayre."—London Globe.

Doings at Daytona Beach

DAYTONA BEACH, Jan. 12.—The second concert, given at the Seabreeze avenue M. E. church, Sunday evening by the choir, was the most enjoyable event of the season. The church was packed by an appreciative audience, and the late comers were turned away for want of further seating capacity.

The program published in the Saturday Daily News was splendidly carried out. The duets by Miss Yelvington and Mr. Pierson, and Misses Aman, and solo by Miss Deaver, elicited several complimentary notices. Miss Deaver's voice is of good timber, and showed culture and feeling. She was heard at the Sunday morning service with pleasure. Mr. Pierson has a deep baritone of good volume. Rev. Haigh's address on the "Needs of the Hour," was well chosen, bright and apt, and made a good finale for the choir. The receipts were something over $13.

Mrs. C. E. Fatzen has gone to Kentucky on a visit to her sister. Mrs. Shields is at the parsonage yet, but is contemplated as to the length of her stay there.

Mr. Wilsey and family, of Daytona, have moved to the Carter cottage, on the river front.

Mrs. Nelson and son Chadwick, have taken rooms with Mr. and Mrs. Horn, on Peninsula drive.

C. L. Horn this week sold lots 4 and 5, in block 19, to Mr. Snelson, who is spending the winter at the Phillips apartment house, on Valley street. These lots are located on South Holly street, adjoining Mr. Garfield's property.

Mrs. Goddard, who was under Dr. Finch's care, as the result of a fall from her bicycle, is not again enjoying her wheel rides.

The Young Ladies' Club was entertained by Miss Wakefield, Saturday evening. The social and industrial features were made prominent, and a very pleasant evening was passed. There were several invited guests present.

Mr. and Mrs. Smith, Mrs. Barker and Mr. Trendall a pleasant party of Michiganders, arrived at the Pinehurst the latter part of last week.

Mrs. A. J. Beardsley arrived from Boyne City, Mich., last Saturday and received a warm welcome from her former friends and friends.

Healthful Tombstone.

Nobody ever dies in Tombstone until he has "shuffled off his mortal coil," or falls into a 600 foot vertical shaft, or buys an automobile, or "runs" their mother-in-law, or try to thaw out powder, or something else equally dangerous. For sport, or stunt off a county seat removal racket. Some die of old age, some old partners of Daniel Boone, but none but ever been known to die from physical irregularities contracted in Tombstone aside from the above mentioned causes and occasionally an abnormal tightness about the throat, superinduced by a coil of manila rope, or from a cold caught through a hole made by a 45.—Tombstone Epitaph.

S. E. Gilmore made the auto trip to DeLand today with the following party: Mrs. Elma G. Stevens, Seabreeze: T. F Williams and Mrs. Perry Harley and daughter, Maude, Daytona.

Mr. and Mrs. O. P. Ruth, registering from Los Angeles, Cal., have arrived in the burg and are pleasantly located until April next in rooms at the Attawanna Pinewood avenue. Mr. and Mrs. Ruth, in an interview with a Daily News reporter, stated that they went to California for health, which had the desired effect so far as Mr. Ruth was concerned, but after seven years, Mrs. Ruth's health still continuing bad, she was advised by her doctor to try a change, and they are here to try out whatever healing balm may be found in this Gilead. Comparing the cost of living here and in California they thought, so far as they had investigated, it averaged about the same.

Origin of "Bonfire."

Stow, referring to the "bonefiers" which the citizens of London were wont to make in the streets on "the vigiles of festiuall dayes and on the same festiuall dayes in the euenings after the sunne setting every man bestowing wood or labour towards them" and which were an occasion of feasting and merriment, says that "these were called bonefiers as well of good amitie amongst neighbours, that, being before at controuersie, were there by the labours of others, reconciled, and made of bitter enemies, louing friendes, as also for the vertue that a great fire hath to purge the infection of the ayre."—London Globe.

Doings at Daytona Beach

DAYTONA BEACH, Jan. 12.—The sacred concert, given at the Seabreeze avenue M. E. church, Sunday evening by the choir, was the most enjoyable event of the season. The church was packed by an appreciative audience, and the late comers were turned away for want of further seating capacity.

The program as published in the Saturday Daily News was splendidly carried out. The duets by Miss Yelvington and Mr. Pierson, and Misses Aman, and solo by Miss Deacon, elicited special complimentary notices. Miss Deacon's voice is of good timbre, and shows culture and feeling. She was heard at the Sunday morning service with pleasure. Mr. Pierson has a deep baratone of good volume. Rev. Haigh's address on the "Needs of the Hour," was well chosen, bright and apt; and made a good plea for the choir. The receipts were something over $13.

Mrs. C. E. Parsons has gone to Kentucky on a visit to her sister. Mrs. Shields is at the parsonage yet, but is undetermined as to the length of her stay there

Mr. Winney and family, of Daytona, have moved to the Carter cottage, on the river front.

Mrs. Nelson and son Chadwick, have taken rooms with Mr. and Mrs. Horn, on Peninsula drive.

C. L. Horn this week sold lots 4 and 5, in block 19, to Mr. Sanborn, who is spending the winter at the Phillips apartment house, on Valley street. These lots are located on North Holly street, adjoining Mr. Garfield's property.

Mrs. Goddard, who was under Dr. Esch's care, as the result of a fall from her bicycle, is out again enjoying her wheel rides.

The Young Ladies' Club was entertained by Miss Wakefield, Saturday evening The social and industrial features were made prominent, and a very pleasant evening was passed. There were several invited guests present.

Mr. and Mrs. Seeley, Mrs. Barker and Mr. Trumbull a pleasant party of Michiganders, arrived at the Pinehurst the latter part of last week.

Mrs. A. J. Beardsley arrived from Boyne City, Mich., last Saturday and received a warm welcome from her family and friends.

Healthful Tombstone.

Nobody ever dies in Tombstone unless they brought it "with'm," or fall into a 600 foot vertical shaft, or buy an automobile, or "sass" their mother-in-law, or try to thaw out powder, or mistake cyanide of potassium for sugar, or start off a county seat removal racket. Some die of old age, some old partners of Daniel Boone, but none has ever been known to die from physical irregularities contracted in Tombstone aside from the above mentioned causes and occasionally an abnormal tightness about the throat, superinduced by a coil of manila rope, or from a cold caught through a hole made by a 45.—Tombstone Epitaph.

The Modern Seven Wonders

Daytona's Incomparable Ocean Beach.

One of Daytona's crowning glories is her incomparable beach. No one who ever set foot upon its smooth, packed sands; no one who ever pedaled a bicycle over its expanse; no one who ever drove a prancing pair of horses and listened to the popping of their steel shoes upon its asphaltum-like face; no one who ever steered a high-power automobile down the broad stretch of wave-washed and surf-packed sand but realized that it is a world-beater, a world's wonder. Go stand upon this wide speedway and see the happy souls flit by in joyous mood, and answer whether this is not one of the seven modern wonders.

The Placid, Pellucid Halifax River.

Where think you is more picturesque surroundings? Nearly a mile wide, fringed with tropical vegetation, artistic cottages with roomy verandas's looking out upon her bosom, gamey food fishes in countless numbers beckoning, as it were, to those with rod and reel; her bosom flecked with duck and coot and snowy-winged sea birds, which sit about as if for the sport of bobbing upon her waves; watch that lubberly old white headed pelican pounce on a fat mullet, and that fish hawk rising upward with his floundering load he snatched from the water.

See the beautiful launches, spick and span, their bumpers and lockers bulging with refreshments both solid an i liquid ready for a run upon her beautiful surface. Take out your field glass and sweep the river from Ormond bridge to Ponce Park light house, then say whether the Halifax isn't a thing of beauty and a joy forever, and one of the modern wonders.

The Enchantingly Picturesque Ridgewood.

Ridgewood avenue is upon the crest of a broad ridge, straight as the crow flies, and the wide-spreading branches of the heavy-trunked Brooke orient their giant arms across this magnificent vista, forming an arch, and from these extended arms great festoons of Spanish moss sway as the trade winds from tropic seas fan them. Looking straight ahead down this white shell street one has the impression of a fairy path with elfish draperies, but as you move along and east an eye first to the right and then to the left you are distinguished cottage homes in the most delightful settings.

See the glistening leaf of the grand magnolia which nature has vouchsafed as an artist's brush ever could; and the cabbage palms with their burdens of showy fruit and swaying palms; see the lovely holly with its exquisite berry; see the climbing vines running riot in the trees; see the cryptogamous forms which gain a foothold on the great oaks and the stately palms, and surely you will join in the chorus and say that this is a world wonder for beauty.

Surpassing Beauty of Our Cottage Homes.

No one of Daytona's attractions, perhaps commands more nearly universal attention and praise than does the attractive cottage. The owners of these charming villas hail from every corner of the country and they bring their own architectural plans and build upon them, and so the architecture of one section of the country differs from the architecture of another so do our homes differ in outward appearance and structural beauty from one another. There are monotonous rows of strikingly similar buildings but the eye, as it sweeps by, is treated to a kaleidoscopic change which keeps the mind wondering "What next?"

It is not only the exterior of many of these homes that excite attention, while in them are models of convenience, and the finish and furnishing give evidence of the elegance and cultivation of those who worked it all out. Indeed it is the interior arrangement and the artistic furnishing and shading, more than the exterior appearance that give a surpassing charm to Daytona homes. Nature just partly justifies prominence as wonder number four.

Streets and Pavements the Most and Best.

Why the Architect of the Universe chose to give to Daytona the most admirable, the most picturesque natural setting of all the cities of the South is not revealed but that such is a fact must be apparent to the most superficial observer. With such lavish wealth of natural beauty it became an easy thing for the hand of man to give the finishing touches which have brought out the colors and outlines of the big picture.

Man did all this in the laying out of the streets with their wide margins of package. The entire city becomes a great park, with driveways interesting, miles upon miles of driveways so great as to attract motorists from all over the continent.

And as for pavements, pavements that look and act like granite,—where else between the eastern and western seas are so many miles in proportion to inhabitants? The pavement question stands with the direct as one of the chief drawing cards. Till some inboard-of place reports more and better, Daytona throws down the gauntlet to the world.

Squirrels, Flowers, Birds and Fruits.

Whatever one's shortcomings and however indifferent or eye callous one may be to many things, the mere mention of "squirrels and flowers, birds and fruits" will send a thrill that is reflected in distended pupils and pricked ears.

For every visitor with a spare "goober" there is a bunny ready to come out and accept your gift. He will sit bolt upright and gnaw into the meat, casting furtive, sassy glances at you meanwhile.

Flowers! Usually fresh and blooming the year 'round. You are reminded of Goldsmith's couplet where

Smiling spring its freshest visit paid
And summer's lingering blossoms are delayed.

In one yard roses of variegated hues predominate, another household have a penchant for the poinsettia and the premises are aflame; another is hidden in a jungle of tall cane. Variety is the spice of life and here is where you find it.

The birds flit in, and with their joyous notes help to give fullness and symmetry to the picture.

As for fruits, choice citrus fruits. Daytona yields the palm to none for quality and quantity per acre. There are scores of citrus groves in proximity to the city, branches bending to the earth with their burdens of luscious golden globes, which for beauty, prolificacy and all desirable qualities would truly astonish.

The Fairest Autos And The Finest Out.

The seventh world wonder, do you ask? Come, whether from Missouri or from Maine, from Kalamazoo or from Timbuktoo and you will be "shown." Here is where world's records for speed are broken with every recurring season. Autos the biggest, the fastest and the finest are on daily parade and the big show is as free as the pure artesian water from the thousand flowing wells. It is a continuous show with constantly shifting scene.

Everything goes, from a 2-horsepower up to a 200-horsepower, and all degrees of speed from a canter to a two-miles-a-minute clip. You will probably catch the spirit and when you do the roads and the beach are yours. The Florida sunshine is free, the balmy ocean breezes are free, the birds and squirrels and flowers are free, the nourishing fountain water is free and you will have to go down in your wallet only for gas for the auto and bed and board.

This is no fanciful picture; it's all here. It is drawing other thousands and is doing them enthralled, it will charm and hold you. Come and see.

Where think you is water with more picturesque surroundings? Nearly a mile wide, fringed with tropical vegetation, artistic cottages with roomy veranda's looking out upon her bosom, gamey food fishes in countless numbers beckoning, as it were, to those with rod and reel; her bosom flecked with duck and coot and snowy-winged sea birds, which sit about as if for the sport of bobbing upon her waves; watch that lubberly old white headed pelican pouch a fat mullet, and that fish hawk struggling upward with his floundering load he snatched from the water.

See the beautiful launches, spick and span, their hampers and lockers bulging with refreshments both solid and liquid ready for a cruise upon her beautiful surface Take out your field glass and sweep the river from Ormond bridge to Ponce Park light house, then say whether the Halifax isn't a thing of beauty and a joy forever, and one of the modern wonders.

The Enchantingly Picturesque Ridgewood.

Ridgewood avenue is upon the crest of a broad ridge, straight as the crow flies, and the wide-spreading branches of the heavy-trunked liveoaks extent their giant arms across this magnificent vista, forming an arch, and from these extended arms great festoons of Spanish moss sway as the trade winds from tropic seas fan them. Looking straight ahead down this white shell street one has the impression of a fairy path with elfish draperies, but as you move along and cast an eye first to the right and then to the left you see distinguished cottage homes in the most delightful settings.

See the glistening leaf of the grand magnolia which nature has varnished as no artist's brush ever could; and the cabbage palms with their burdens of showy fruit and swaying palms; see the lovely holly with its exquisite berry; see th climbing vines running riot in the trees; see the cryptogamons forms which gain a foothold on the great oaks and the stately palms, and surely you will join in the chorus and say that this is a world wonder for beauty.

Surpassing Beauty of Our Cottage Homes.

No one of Daytona's attractions, perhaps commands more nearly universal attention and praise than does the artistic cottage. The owners of these charming villas hail from every corner of the country and they bring their own architectural plans and build upon them, and as the architecture of one section of the country differs from the architecture of another so do our homes differ in outward appearance and structural beauty from one another. There are no monotonous rows of strikingly similar buildings but the eye, as it sweeps by, is treated to a kaleidoscopic change which keeps the mind wondering "What next?"

It is not only the exterior of many of these homes that rivets attention; within they are models of convenience, and the finish and furnishing give evidence of the elegance and cultivation of those who worked it all out. Indeed it is the interior arrangement and the artistic furnishing and shading, more than the exterior appearance that give a surpassing charm to Daytona homes. This feature justly merits prominence as wonder number four.

Streets and Pavements the Most and Best.

Why the Architect of the Universe chose to give to Daytona the most admirable, the most picturesque natural setting of all the cities of the South is not revealed but that such is a fact must be apparent to the most superficial observer. With such lavish wealth of natural beauty it became an easy thing for the hand of man to give the little finishing touches which have brought out the colors and outlines of the big picture.

Man did all this in the laying out of the streets with their wide margins of parkage. The entire city becomes a great park, with driveways intersecting, miles upon miles of driveways so good as to attract motorists from all over the continent.

And as for pavements, pavements that look and act like granite,—where else between the eastern and western seas are so many miles in proportion to inhabitants? The pavement question stands with the street as one of the chief drawing cards. Till some unheard-of place reports more and better, Daytona throws down the gauntlet to the world.

Squirrels, Flowers, Birds and Fruits.

Whatever one's shortcomings and however indifferent or eve callous one may be to many things, the mere mention of "squirrels and flowers, birds and fruits" will send a thrill that is reflected in distended pupils and pricked ears.

For every visitor with a spare "goober" there is a bunny ready to come out and accept your gift. He will sit bolt upright and gnaw into the meat, casting furtive, saucy glances at you meanwhile.

Flowers! Usually fresh and blooming the year 'round. You are reminded of Goldsmith's couplet where

Smiling spring its earliest visit paid
And summer's lingering blossoms are delayed.

In one yard roses of variagated hues predominate, another household have a penchant for the poinsettia and the premises are aflame; another is hidden in a jungle of tall cane. Variety is the spice of life and here is where you find it.

The birds flit in, and with their joyous notes help to give fullness and symmetry to the picture.

As for fruits, choice citrus fruits, Daytona yields the palm to none for quality and quantity per acre. There are scores of citrus groves in proximity to the city, branches bending to the earth with their burdens of luscious golden globes, which for beauty, prolificacy and all desirable qualities would truly astonish

The Fastest Autos And The Finest Out.

The seventh world wonder, do you ask? Come, whether from Missouri or from Maine, from Kalamazoo or from Timbuktoo and you will be "shown." Here is where world's records for speed are broken with every recurring season. Autos the biggest, the fastest and the finest are on daily parade and the big show is as free as the pure artesian water from the thousand flowing wells. It is a continuous show with constantly shifting scene.

Everything goes, from a 2-horsepower up to a 200-horsepower, and all degrees of speed from a canter to a two-mile-a-minute clip. You will probably catch the spirit and when you do the roads and the beach are yours. The Florida sunshine is free, the balmy ocean breezes are free, the birds and squirrels and flowers are free, the sparkling fountain water is free and you will have to go down in your wallet only for coin for the auto and bed and board.

This is no fanciful picture; it's all here. It is drawing other thousands and holding them enthralled, it will charm and hold you. Come and see.

SEVENTH DAY ADVENTISTS IN A TENT MEETING.

* * *

Begin A Week Of Services—Their Tent Pitched Adjoining The City Building.

A series of Bible lectures, conducted by Elder R. W. Parmele, president of the Florida Conference of Seventh Day Adventists, will begin in a tent erected at the corner of Beach street and Orange avenue, commencing Friday night, January 13th, at 7:30 o'clock.

Elder Parmele will be assisted by Elder C. B. Stephenson and W. S. Brown.

Charles P. Whitford, the singing evangelist, will be in charge of the music.

Song services will begin at 7:15 o'clock. The following subjects and many others of equal importance will be discussed each night:

1. The United States a subject of prophecy.
2. Meaning of the great preparation for war.
3. The origin, history and destiny of Satan.
4. The condition of man in death.
5. The promise of the Holy Spirit.
6. The Millennium.

The tent will be nicely warmed, well lighted and ventilated. Seats free. Everybody welcome.

What He Was Allowed to Do.

A Presbyterian clergyman who was accustomed to bring new to Sabbath-school instructions to attend fraternal greetings was delegated to the pioneer conference of the Methodist Episcopal church.

Rising to speak, he said it was in vain for disbelieving to him to see how the different evangelists assembled into the communion of the various denominations.

"For instance, I attend a convocation of the Episcopal church, for example," said he, "I find I can do anything I like—stand, kneel or be seated. When I go before the Baptist church I am immersed—sometimes whether I want it or not. When I go before the Methodist church I am asked whether I prefer sprinkling or pouring, and," he said, with a smile, "when I appear among the Presbyterians I notice I am allowed everything except talking like the writer."—Ladies' Home Journal.

Housekeeping in Paris.

Everybody housekeeping in Paris is constantly unique. Everything arrives at 6 a. m. for the most part ready for use. Meat, milk, butter, vegetables—all must be sent here in the store-rooms, as they of course would go sour if kept indiscriminate at times, but we were also considerably to vary it. Sometimes a duck would arrive with a pair of rabbits, which he would eat for two weeks of tobacco, making themselves. The wretched turtle would be killed and cut up, but would still loiter in existence in a corner under some dish, even when placed on the fire to cook. There, too, if the season was a good one, the kitchen would be found lined with packages of vegetables, and I would be hard to know what to do with so much fresh food.—Wide World Magazine.

Witty Sayings.

W. S. Gilbert said of Beerbohm Tree's Hamlet that it was "Hamlet without being tiresome."

During an Englishman's return to New Haven he asked what is a new subject. "Please, sir, today must be spoken of as yesterday. The subject is always."

A Philadelphia woman said, "Of course, there will be no marriage in heaven. There will be no beauty if we don't have a few men, but none any one would care to marry."

Sunday by the Sea.

Caroline Manning, the famous Englishwoman, was guest of Dora. The great philosopher's appearance was so marvelous that he escaped in between several matches. There he had to be rushed a moment, and the rest dare to ask for a blessing, which she did.

"May the Lord preserve your soul, Dora," said she, and then, looking at the table here, she added, "and oh, may God forgive your cook."

WATER WORKS BONDS SNAPPED UP.

(Continued from First Page.)

of capitalists in Daytona with hoardings here and there. It would be a capital idea for them to form a little pool and put in a local bid on the school bonds.

The $50,000 water works bond issue awarded yesterday go to William R. Compton Co., St. Louis, Mo., at 105½. There were six bids made, ranging from par to the bid of the William R. Compton Co.

Other capitalists who made bids were C. H. Coffin, Chicago, $50 off.

The Security Savings Bank and Trust Co., Toledo, O., $50,000.

Otis & Bough, Cleveland, O., $50,125.

John Nuveen & Co., $47,500, this firm to furnish the lithographed bonds, and any further proceedings to the city in the matter of the bonds without expense to the city. This last proposition was rejected as practically a par bid.

The bids were opened at 2 o'clock yesterday afternoon in the presence of the Bond Committee, composed of F. S. Conrad, F. D. Spring, J. W. Lewis, D. D. Rogers and Wm. Atwood, who disposes themselves to abstract with the result.

Now that the sale of the bonds is assured the contract for the construction of the waterworks system will be let in about two weeks and the artesian well and stand-pipe and water mains will begin to germinate into definite tangible form.

It is pretty generally conceded since all the facts are known, that the Bond Trustees were wise in their purchase of the eight per cent issue. The fact is in the north side of Magnolia avenue, adjoining the T. E. Hill on the west, and competitive bids were.

A good building on the grounds is considered a must as it will act as to facilitate the conservation of the water, and that vessel between the higher pressure line of water. It is stated, will have either passenger facilities or freight rates it.

Citizens of Daytona should feel sincerely grateful to the board members for the accomplishment, and they will feel with pleasure the prospective saving in taxes with thirteen years and just how extraordinary it is—when not long work completed is done.

What He Was Allowed to Do.

A Presbyterian delegate who was appointed to being sent to denominational conventions to extend fraternal greetings was delegated to the general conference of the Methodist Episcopal church.

Rising to speak, he said it was always an interesting study to him to note the different receptions accorded him at the conventions of the various denominations.

"Whenever I attend a convention of the Episcopal church, for example," said he, "I find I can do anything I like except preach in the pulpit. When I go before the Baptist church I am accorded every privilege except that of taking communion. And," he said, with a smile, "when I appear among the Methodists I notice I am allowed every privilege except taking the collection."—Ladies' Home Journal.

Housekeeping in Papua.

European housekeeping in Papua is charmingly simple. Everything arrived in a tin, for the most part ready for us. Meat, milk, butter, vegetables—all stood in tins in neat rows in the storeroom. A diet of tinned stuffs grew rather monotonous at times, but we were able occasionally to vary it. Sometimes a man would arrive with a live turtle, which he would sell for two skins of tobacco, costing threepence. The wretched turtle would be killed and cut up, but would still insist on quivering in a most realistic manner even when placed on the fire to cook. Then, too, if the season was a good one, the kitchen would be found lined with joints of valuables, and it would be hard to know what to do with so much fresh meat.—Wide World Magazine.

Witty Sayings.

W. S. Gilbert said of Beerbohm Tree's Hamlet that it was "funny without being coarse."

During an Englishman's lecture in New Haven the usher said to a late comer: "Please, sir, take your seat as quietly as possible. The audience is asleep."

A Philadelphia woman said: "Of course there will be no marriage in heaven. There will be plenty of women there and a few men, but none any one would care to marry."

Spoiled by the Cook.

Cardinal Manning, the famous English churchman, was grimy of face. The great ecclesiastic's appearance was so exotic that he seemed to have been almost scarred. Once in Liverpool he visited a convent, and the cook knelt to him for a blessing, which she got.

"May the Lord preserve your eminence," said she, and then, looking at his calm face, she added, "and, oh, may God forgive your cook."

Other capitalists who made bids were C. H. Coffin, Chicago, $50,650.

Otis & Hough, Cleveland, O., $50,125.

John Nuveen & Co., $47,500, this firm to furnish the lithographed bonds, and any further proceedings to the city in the issuing of the bonds without expense to the city. This last proposition was regarded as practically a par bid.

The bids were opened at 2 o'clock yesterday afternoon in the presence of the Bond Committee, composed of F. K. Conrad, F. D. Spring, E. W. Green, D. D. Rogers and Wm. Atwood, who express themselves as pleased with the result.

Now that the sale of the bonds is assured the contract for the construction of the waterworks system will be let in about two weeks and the much-needed, much-discussed water works plant will begin to crystalize into definite tangible form.

It is pretty generally conceded since all the facts are known, that the Bond Trustees were wise in their purchase of the eight they chose. The tract is on the south side of Magnolia avenue, adjoining the F. E. C. Ry. on the west, and comprises three acres.

A good building on the grounds is immediately available, which will serve to facilitate the construction of the water works, that usually furnishes the fullest possible flow of water; it is central, and has other desirable features to recommend it.

Citizens of Daytona should feel immensely gratified at the happy results so far accomplished, and they will hail with pleasure the prompt and active co-operation with thorough work and judicious expenditure, in carrying out the work entrusted to them.

The little son of Mrs. Price of Cedrus Ave., who is employed in the Bazaar department of Smith Bros.' store, was painfully burned Monday morning by accidentally pulling a teakettle of boiling hot water over on his head and arms.

Little Lucie suffered the most intense agony and screams when he was finally placed on the bed, but the little one now is still suffering from the severe burns.
